

Blue Drop for Contract 2015

Winner

Prodital Leathers with ‘New Stingray Bottle Green’

Prodital Leathers is a High Quality Italian Leather Tannery Manufacturing company producing top quality leather, leather wall coverings and leather tiles. This hand tipped and embossed bovine leather is one of the best stingray skin imitations ever seen. Its exotic look makes it unnecessary to hunt the animals for their skin.

Giorgio Piovano with ‘Gemini TCS0115’

This knitted window covering is inspired on the golden age. It's metal glow and elegant drape fit perfectly well in the house of the future. The unique knitting technique makes it possible to create a window covering that keeps its dimensions, even after years of use. The innovative Trevira CS knit yarns insure its UV fastness of 7/8 and its fire resistance.

Bruvatex with ‘Richie’

Bruvatex created this extraordinary outdoor velvet that is acrylic solution dyed and has more performances and softness than any other outdoor velvet. It is created on a wire loom and shows a pattern that reminds of a soft beach towel. Although it is still a prototype, the jury immediately understood its impact on outdoor textile market.

We'd love to hear from you!
